Soon Wei Daniel Lim

danlimsw@stanford.edu | Google scholar | danlimsw.com

Summary

I am an interdisciplinary applied physicist with a unique background in both life and physical sciences. I have research experience in mouse model studies of neurodegeneration, micro-optical device fabrication by harnessing surface tension, particle-laden computational fluid dynamics, neural network algorithmic tools for optimal design, nanoscale devices to control every degree of freedom in wavefronts, radiofrequency/ultrasound image reconstruction, and bioengineering for drug, protein, and gene delivery to cells.
My research interests are in the design of low-cost, high-accessibility medical diagnostics and therapeutics.

Employment

Schmidt Science Fellow, Stanford University School of Medicine — Nov 2023 - present

Advisor: Prof. Steven Chu. Developing low cost, high efficiency intracellular delivery techniques for *in vivo* diagnostics.

Doctoral Researcher, Harvard University — Sep 2018 - Sep 2023

Advisor: Prof. Federico Capasso. Investigated counter-intuitive fundamental behavior of structured wavefields containing singularities ("dark" regions of light). Achieved a flat lens that uses extremely deep and narrow holes, the highest aspect ratio nanostructures for wavefront shaping.

Research Assistant, Bioprocessing Technology Institute, A*STAR — Jan 2018 - Jun 2018

Advisor: Prof. Shireen Goh (now at SUTD, Singapore). Modeled multiphase computational fluid dynamics for inertial focusing in dense particle-laden flows.

Research Engineer, Singapore Institute of Manufacturing Technology, A*STAR — Jul 2017 - Dec 2017

Advisor: Prof. Wong Liang Jie (now at NTU, Singapore). Simulated strong-field light-matter interactions in laser-based particle acceleration.

Undergraduate Researcher, California Institute of Technology — Jan 2015 - Jun 2017

Advisor: Prof. Sandra Troian. Developed microlens arrays in polymer using spatially-varying surface tension.

Research Intern, Institute for Infocomm Research, A*STAR — Jun 2014 - Aug 2014

Advisor: Dr. Ng Tian Tsong. Designed analytical tools for the medical application of micro-NMR devices.

Research Intern, Institute of Materials Research and Engineering, A*STAR — May 2013 - Jul 2013

Advisor: Prof. Chin Jia Min (now at University of Vienna). Self-assembly of non-closed packed pore arrays.

Research Intern, National Neuroscience Institute, Singapore — Dec 2007 - Dec 2009

Advisor: Dr. Jeanne Tan. Mouse model study on the role of heat shock proteins in neurodegeneration.

Education

2018 - 2023 Ph.D. Applied Physics, **Harvard University** **GPA: 4.0/4.0**
Advisor: Prof. Federico Capasso; Thesis: *Sculpting the dark: Singularity engineering with metasurfaces*

2013 - 2017 B.S. Physics, **California Institute of Technology** **GPA: 4.3/4.3, rank 1/254**
Advisor: Prof. Sandra Troian; Thesis: *Revolution in large-area curved surface lithography: Nanofilm sculpting by thermocapillary modulation*

2016 Caltech Cambridge Scholar, **Cambridge University** **Class: First**

Selected Awards

- **Schmidt Science Fellowship** (2024).
  - A postdoctoral fellowship enabling the world's best emerging scientists to pivot from their PhD discipline and pursue their goals through bold interdisciplinary research [Source: Schmidt Science Fellows].
  - First Singaporean (jointly) to receive this fellowship, one of 32 fellows for 2024.
- **Lindau Young Scientist** (2019).
  - One of eight young scientists selected to represent Singapore in the 2019 Lindau Nobel Laureate Meetings.
- **A*STAR Roll of Honor** (2017).
  - One of six A*STAR scholars recognized for top undergraduate academic achievement.
- **D.S. Kothari Prize in Physics** (2017), California Institute of Technology.
  - Given to a graduating senior in physics who has produced an outstanding research project during the past year [Source: Caltech Physics].
- **Friends of the Caltech Libraries Senior Thesis Prize** (2017), California Institute of Technology.
  - Recognizes senior theses that exemplify excellent research, writing, and the effective use of library resources [Source: Caltech Libraries].
- **Haren Lee Fisher Memorial Award in Junior Physics** (2016), California Institute of Technology.
  - Awarded annually to a physics major who has completed their second year and demonstrates great promise for future contributions to the field [Source: Caltech Physics].
- **Jack E. Froehlich Memorial Award** (2016), California Institute of Technology.
  - Awarded to a junior in the upper 5 percent of their class who shows outstanding promise for a creative professional career [Source: Caltech Deans].
- **Ken Hass Outstanding Student Paper Award** (2017), American Physical Society.
  - Recognizes an outstanding student paper addressing the subject of industrial applications of physics [Source: APS].
  - Paper: "Fabrication of Converging and Diverging Polymeric Microlens Arrays By Spatiotemporal Control of Thermocapillary Forces"
- **International Physics Olympiad Silver Medal** (2010).
  - One of five students selected to represent Singapore.

Fellowships and grants

Start-up grant	**Nanyang Assistant Professorship,** Nanyang Technological University (2026-2030).
US$220,000	**Schmidt Science Fellowship**, Schmidt Sciences (2024-2026).
SGD$20,000	**NUS Development Grant**, National University of Singapore (2024-2025).
8 years full funding	**National Science Scholarship**, A*STAR Singapore (2013-2023).

Teaching

- Fall 2019: Harvard University Physics 123/223, "**Laboratory Electronics**", Teaching Fellow
- Fall 2016: California Institute of Technology Physics 5/105, "**Analog Electronics for Physicists**", Teaching Fellow

Mentorship

1. 2019-2020: Rui Jie Tang (research intern), now Ph.D. candidate at the University of Toronto
2. 2021-2023: Revin Jun (research intern), now undergraduate at Harvard University

Leadership and community service

- **Head**, National Science Challenge Scientific Working Committee (2017 - 2018)
  - Spearheaded a diverse team of 15 members across multiple organizations, overseeing the planning and implementation of scientific projects, competitive rounds, and outreach initiatives for the National Science Challenge, a nationally-broadcast inter-school science contest. Provided expert advice to the national broadcaster (Mediacorp) throughout competition and filming stages.
  - Successfully concluded with the 2017 broadcast (6 episodes) and 2018 broadcast (6 episodes).

Referees

- **Prof. Federico Capasso**, Robert L. Wallace Professor of Applied Physics and Vinton Hayes Senior Research Fellow in Electrical Engineering, Harvard University: capasso@seas.harvard.edu
- **Prof. Steven Chu**, William R. Kenan Jr. Professor, Professor of Molecular and Cellular Physiology and of Energy Science and Engineering, Stanford University: schu@stanford.edu
- **Prof. Sandra Troian**, Professor of Applied Physics, Aeronautics, and Mechanical Engineering, California Institute of Technology: stroian@caltech.edu
- **Prof. Todd Zickler**, William and Ami Kuan Danoff Professor of Electrical Engineering and Computer Science, Harvard University: zickler@seas.harvard.edu
